What better way to enjoy the cooler seasons than surrounded by designer furniture, crafted with sustainable materials and new season fabrics!

Autumn Winter Collection ~ 2022

This season, "of the moment" is the motto for all of our collections. From the design to the materials chosen for each piece.

More than ever, we want you to enjoy your home. What makes fabrics like fleece and thick corduroy such big hits this year? We know the answer! Of course, beautiful furniture is joined by textiles and decoration to complete the look.

After so many months spent designing and developing, we are feeling confident in the work that's gone into our new collections. This season we present designer furniture, made with sustainable wood and plenty of personality, that's sure to be the centre of attention.

The Comfy House

The Comfy House is the very definition of the phrase "There's no place like home."

Following trends for the home is not at odds with comfort, which is why we present a wide collection of iconic pieces finished with the must-have shearling fabric.

The beige, grey and white tones take on more force than ever, and contrast with the sustainable solid wood of our most recent "Rasha" in-house design collection for the entire home.

Rasha Collection

Eight in-house designs in sustainable wood

The irregular cut of Rasha's sustainable oak veneer makes it totally unique. A design that puts wood front and centre to reveal unique tones, shapes and grains and whose curved edges create organic, exclusive design.

A complete collection for your dining room, living room, bedroom or hallway... Combine them for a full and cohesive look.

Accompanied by a collection of lighting and decor in metallic gold, velvet and rounded shapes, Retro Revival is ready to transport us back in time.

A retro living room

Classic style with a twist, our iconic Blok sofa is back this season in the colour and fabric of the moment: Green corduroy.
