SPRING - SUMMER 2023 COLLECTION

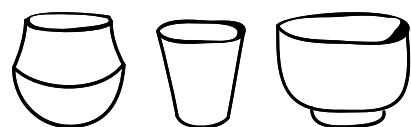

pottery is our nature

We breathe design and nature. That's why we develop unique elements, mainly ceramics, wood, wicker or glass. These interior objects offer you countless possibilities to infuse your home with green. No matter if you live in the countryside or in a modern urban hide-out where every inch matters. And do not forget to add a touch of design to your outdoor setting if you have a garden or a terrace.

Pottery is our nature. It's what excites us and triggers our curiosity. For each and every design we look for the perfect balance between flowers, plants and interior. Every day we create pieces which are not restricted to one single space or setting. Thanks to our pottery designs, you can make arrangements with flowers and plants to fill your home with greenery, no matter which season.

Twice a year we present you our timeless and new collections, all with an authentic feel. We love to use natural materials which you can combine endlessly. The wide variation in the collections result in different themes so you can always find the perfect match for your interior style.

D&M was founded in Belgium in 1992, so you can rely on more than three decades of expertise when it comes to textures, techniques and materials for all our designs. Today we are a trendsetter in the sector, and we are always looking for sustainable materials and production processes. From photography to graphic design and styling of the boutiques: our young creative team puts a very own D&M stamp to every space – also yours.

The recycled ceramics, from which the **TACT** collection originates, tell a story of circularity, by bringing old and new together, which inspired the formal language of this collection. The pots have a robust look, a link to our current image of primitive pots, that have been shaped by the elements over time and kept traces of their original design.

Hence, within the **TACT** collection, the materiality is highlighted through movement. Two nuances of the same color makes us look twice at marks of the recycled ceramics. As well as a game of shadow over the surface, which is created by the asymmetrical shape that appears and disappears depending on the placement of the pots in space. - Charlotte Jonckheer

KOS consists of 3 typologies: curves, bowls & pots. The curves are a reinterpretation of the classic flower pot. Their curved surfaces differ in size, adding a certain dynamic to the design, whilst gently embracing the plant. Hence I chose the collection name **KOS** which means "an embrace" in norwegian. The bowls have a calm & purified design. Filled with fruits they brighten up every empty table or kitchen counter. Stack the bowls or combine different sizes to create a unique total look. The pots have a very purified and sober design so the attention is drawn to the plants.

The 3 typologies combine beautifully since their design is built up on the same basis. Visually it looks like one pot can be divided into one bowl and two curves. - Anouk Taeymans

OSKAR

He's a funny one, our OSKAR. Always cracking jokes, making sure everyone around the table is having a fabulous time. In fact, he's happiest when that table is overflowing, pushing his Nepal pictures, breakfast bowl and that Miranda July book he's been wanting to read off to the far end to make some room for tonight's company.

Because with OSKAR, there's always company. One day there's a bunch of friends over from his stint in Valencia, the next he's cooking beef stew under the scrutinous eye of his grandmother, author of the family recipe.

He may not be a father—yet—but OSKAR's definitely got the makes of a family man, treating his girl as well as his friends to the same hospitality he would his wild bunch of cousins.

Sounds traditional? Well, maybe. OSKAR likes his coffee the regular old shade of black and buys leather loafers 'because they last'.

Yet he isn't one to strictly follow the rules. Sure, spoons are for dessert and coffee comes after—usually. But rules are boring and so is classic china on a table that's full of life.

So OSKAR doesn't quite mind whether the amuses he serves come in the same bowls as the home-grown parsnip soup he had for lunch. Life's too short to worry about etiquette, which is not to say there isn't any place for refinement on the table. Much to the contrary. Ask any of OSKAR's friends and they'll tell you how much of a treat it is to be sat at that endless wooden dinner table of his.

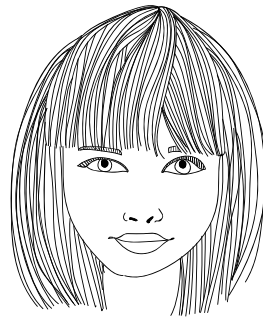

Basically, OSKAR's just an honest guy who loves good company, full plates that soon turn empty and that touch of je ne sais quoi that can only be sparked around a meal made with pizzazz. Good times, no fuss and big smiles. That's OSKAR.

Nice to meet you.

Meet **LEA**, OSKAR's first cousin, a slender damsel of a tableware set comprising of twelve pieces, from bowls over plates to pitchers. Free of any pretence, this series' simplicity consists of pure shapes, one after the other cast in moulds in the country that gave birth to fine porcelain and ended up naming it, too: China. The hand-painted Midnight Blue contrasts beautifully with the grey lining the inside of bowls and jugs alike, while the Sky Blue series is subtly signed with a handful of inked freckles.

In a grand mansion, somewhere in Antwerp, at a long wooden table covered with piles of various cups and plates, we meet **YANN**, OSKAR's favourite uncle: a down to earth tableware collection. Always quick with a joke, nevertheless very conscious of his surroundings. Look at his colours: earthly reddish brown, crème de la crème and versatile black. To know **YANN's** lovely character, is to know his nine handmade shapes, always fitting in, yet very different.

shop in shop

shop in shop

The D&M-in-shop concept was conceived and developed to present D&M products in an inspiring way in a shop or showroom environment, in line with the overall look and spatial constraints of the shop, the customer's wishes or options. Depending on these parameters, we will create a compact, stylish showroom area where you can display and present the D&M assortment, optionally add matching furniture, or even integrate the D&M presentation systematically in the shop or showroom.

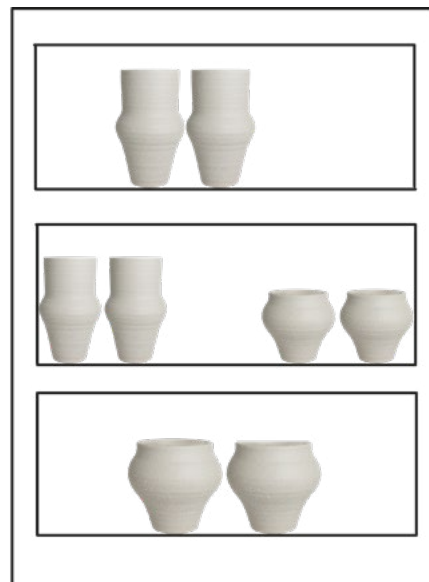

Store managers who are interested can discover the different possibilities by appointment.

visual merchandising

Pure materials, natural colours and classy shapes is the thread throughout our collections. The power of simplicity and yet an eye for detail is what our company stands for. We will show you some of the mood boards we used while designing the collections. It allows you to understand the themes within our collections.

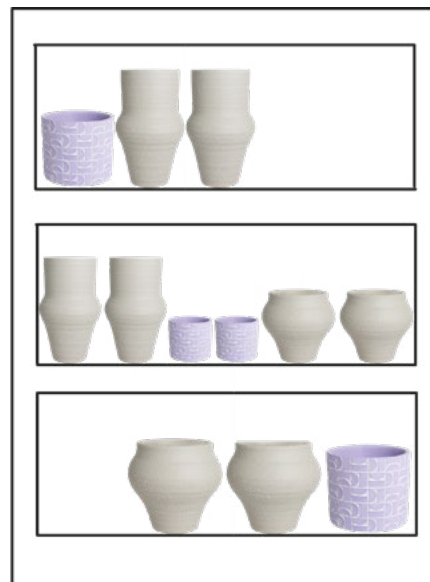

Visual merchandising is the art of arranging the products in your store in a manner that will make customers want to buy them.

DIAGONAL BLOCKS

Style in diagonal blocks and try to find balance.
TIP: Repetition brings peace.

COMBINE COLOURS

Make a combination with 2 or maximum 3 colours.

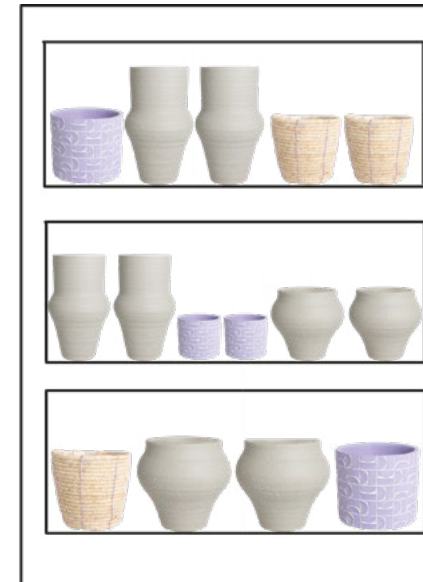

Displaying items in an attractive manner will encourage sales, because a customer will want to replicate the look by purchasing the product and displaying it in his own home. Through visual merchandising we aim to create a 'need' for the customer, promote and develop our brand and identity whilst establishing a thoroughly consistent expression throughout all shop in shops. We try to create an actual experience for the customer.

This manual is a step-by-step guide where you will be given information and insight to help create an inspiring and sales-optimised shop-in-shop.

The purpose of this merchandising manual is to give shops a tool to ensure a highly visible, consistent expression in the area of merchandising.

Thank you for letting us take you with us on this visual merchandising journey. Please do not hesitate to contact us if you have any questions regarding this manual.

STYLING EXECUTION

Applicate previous steps, one collection at a time.

Keep collections together, we design our collections to find a continuity in styling and presentation.

FINISHING TOUCH

Take a step back and have a look. Make sure all products are facing the customer.

Signage is an important part of communication with our customers, so it is essential for all signs to be updated with the right message.

Make some pot + plant combinations.
